PERFECT FOR ANIMALS REQUIRING A HIGH PROTEIN, HIGH ENERGY DIET

- HARVEST TO BALE IN A DAY
- PRECISION DRIED
- SUSTAINABLY SOURCED
- HIGH PROTEIN & ENERGY
- HIGHLY COMPRESSED
- PREMIUM QUALITY

ULTRA-PREMIUM

Medium Bale
580 x 205 x 380mm

Large Bale
580 x 375 x 380mm

Mega Bale
1100 x 1100 x 585mm

Small Bale
580 x 115 x 380mm

AUSTRALIAN MADE, GROWN AND OWNED

FEEDSAFE ACCREDITED FEED MANUFACTURER

Oreco Chopped Lucerne Hay is produced from the very best pre-bloom Lucerne crops in Australia. This premium feed is grown and processed with care for grazing and foraging animals including horses, cattle, sheep and other livestock.

Oreco Chopped Lucerne Hay is not like any other hay product available on the market. We don't rely on time, weather, third party farmers or luck to dry out our fibre crops. This product is harvested, precision dried, screened, compression baled and packaged ALL ON THE SAME DAY. This ensures maximum quality, nutrition and freshness, all year round.

The Lucerne is chopped and harvested on the farm, then lifted directly into our transportable field bins. The bins of freshly cut hay are then transported to our factory, where the hay is dried through Australia's biggest agricultural dryer. This dehydrating process rapidly and precisely reduces the moisture content to a specified and consistent level. The premium, heat treated Lucerne hay is then screened, compression baled and packaged, ready for animal consumption.

At Oreco Group, we are manufacturers of a sustainable future, dedicated to assuring the quality of the products we create by being hands-on from the farm to finished product. We source the best, eco-friendly, sustainable and natural Australian materials that produce the cleanest and highest quality animal care products in the world!

FEATURES & BENEFITS

- Harvested pre-bloom for maximum nutrition
- Precision dried
- Racehorse & thoroughbred quality
- Excellent nutritional value
- Very palatable
- Long shelf life
- Hygienically sealed
- Heavily compressed
- Sustainably sourced
- Australian made, grown & owned
- Easy & efficient storage
- Value for Money
